

Ready-made trays – variety brought into shape

An attractive package as purchase argument – we can also offer our customers here a complete solution in all steps. Our range of services for you goes from development to production, from design to production of the prototype tool to manufacture.

Our ready-made trays based on PS, PP, and APET can be supplied in all shapes and colours. There are practically no limits placed on your creativity.

In addition, we can offer you the widest variety of designs:

It makes no difference if it is stickers on the lid or the tray itself or pre-finishing for example of napkins or cutlery in the bottom of the tray, we will find a realisable solution for all your packaging wishes.
